Important Bird List Information

SEASONAL CODES

W=Winter (December-February)

SP=Spring (March-May)

S=Summer (June-August)

F=Fall (September-November)

ABUNDANCE CODES

A=Abundant

C=Common

U=Uncommon or fairly common

R=Rare

The relative abundance and seasonal distribution is based on data from Sonoma, Napa, Solano and Marin Counties. The status of a species reflects its most prevalent seasonal occurrence within it's most suitable habitat. The four seasons may vary to a considerable extent depending on the species arrival and departure month.

San Pablo Bay

National Wildlife Refuge

BIRD CHECKLIST

San Pablo Bay NWR was established in 1974 to conserve, restore and protect bay wetlands for endangered species, nesting habitat and migratory birds. The refuge consists of approx. 20,000 acres of critical wildlife habitat.
